

We believe that shared values drive an organization's success. Values that reflect a team's unique culture and priorities create a framework for living out its mission and vision each day. To that end, The Miles Foundation strives not only to fulfill our founder's legacy directly through our giving, but also through behaviors and actions that add value to our relationships, maximize our resources, and leverage community impact. Thank you to all of our partners for fostering a spirit of collaboration and innovation in our work together. We're excited for what's ahead!
