

What does it mean to be a champion for change? This year, we asked our partners how we might better embody this powerful phrase. How could we be better advocates of our grantees' work? How could we improve our partnerships? How could we help to maximize our collective impact? What we learned not only changed how we view our role in the community, but also led us to action – to definitively do things *differently*. With best-in-class partners willing to work and learn alongside us, we believe that together we are well on our way to **Changing for Good**.

EDUCATION NEWS & DEVELOPMENTS
